

Pumping wells dynamic parameters computer simulation and system optimization [Paperback]

By DONG SHI MIN

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback Pages Number: 156 Publisher.: Petroleum Industry Press; 1 (2003 December 1st). Book longitudinal vibration analysis of sucker rod mechanics model. and adapt to a wide range of pump valve new model of the law of motion; fluctuations in motor speed. valve hysteresis closure and downhole gas-water multiphase flow. improvement and development of a computer simulation model of the dynamic parameters of the pumping wells; unit module simulation method to solve the highly coupled mixed-model simulation algorithm; improved ground drive transmission power of each node. the cell average operating efficiency of the calculation method; multiphase flow conditions. the discharge coefficient of the pumping wells and the method of calculation of the effective power. the development Theory of Computation of the efficiency of the system of pumping wells; established based on system dynamic simulation machine lever pump system optimization design methods; developed under the Windows operating environment. the dynamic parameters of pumping wells computer simulation and system optimization design software. Read book adaptation in production engineering and technical personnel. Four Satisfaction guaranteed, or money back.

Reviews

It is an awesome publication which i actually have ever read through. it had been writtern really properly and valuable. I found out this book from my i and dad recommended this pdf to discover.

-- **Doyle Schmeler**

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
