# EXPERIMENTAL AND NUMERICAL INVESTIGATION OF THE HYDRODYNAMICS OF MICROFILTRATION PROCESSES USING A MULTI-SCALE APPROACH

Shaker Verlag Mai 2011, 2011. Buch. Book Condition: Neu. Neuware - Submerged membrane bioreactor (MBR) processes for treating municipal or industrial wastewater are one of the most promising applications of microfiltration membranes. Previous studies were spread over various fields of research including water science, microbiology, chemical engineering, material science and process control. All of the above research societies contributed comprehensively to a further improvement of the technology. Nevertheless, it is known that higher operational expenses compared to conventional water treatment...

## Reviews

---

*The very best ebook i actually go through. I am quite late in start reading this one, but better then never. You are going to like just how the author create this pdf.*

-- **Jazlyn Farrell**

*This pdf is indeed gripping and exciting. It can be loaded with knowledge and wisdom I am just very easily could possibly get a delight of studying a composed book.*

-- **Katlynn Veum**
