Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Home Studies in Nature Many years ago, when I began my studies in Natures open book, I had no thought of ever giving them to the public; but I soon became deeply interested, and found so many things new to me, and some new to science, that my correspondents, especially those engaged in similar pursuits, urged me to publish the result of these observations. Some of them were printed in scientific journals, but as the interest deepened, the wish came to tell a greater number of readers what I saw around me, and I therefore sent notes of my investigations to some of our popular periodicals, mostly to Harper s Magazine, and this volume is mainly composed of these papers. Our Winter Birds and Under the Maples were published in the Atlantic Monthly; the first chapter on Utricularia appeared in the New York Tribune, and the chapter on Drosera in the American Naturalist, the remainder in Harper s Magazine.
